

Media Composer

The professional's choice for creative editorial

Media Composer® is proven and trusted by professional editors in every segment of movie making, television, broadcast, and streaming media. Designed to handle high volumes of disparate file-based media, Media Composer delivers accelerated high-res and HD workflows, real-time collaboration, and powerful media management, eliminating time-consuming tasks so you can focus on telling a great story. And now it's even easier to use, with a sleeker new interface, support for HDR (high dynamic range), more audio tracks, and more power under the hood.

"These tools have become so powerful... I don't have to think about how I hammer the nail—I can just be creative."

Alan Edward Bell, A.C.E.

Editor (*The Hunger Games: Catching Fire*,
The Amazing Spider-Man, *Water for Elephants*)

Accelerate your workflow

Media Composer goes where other editing systems leave off, enabling you to create and deliver your best work faster. Accelerate 4K, Ultra HD, HD, SD, 3D, HDR, and custom-raster file-based workflows. Maximize your efficiency with the award-winning, ACE-certified toolset. Archive finished sequences with ease. And because complex media tasks, including transcoding and effects rendering, can be automated in the background, you gain more time to focus on your story.

Get unparalleled workflow solutions

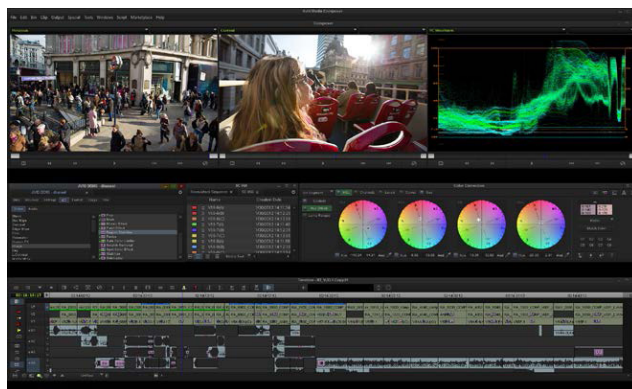

With Media Composer, you can create in ways you never thought possible. Work in any resolution with Avid Resolution Independence and the new Avid DNxHR codec. Edit solo or collaborate with others—in real time—on premises or from anywhere through the cloud. Find the best takes and right clips fast with the ScriptSync® and PhraseFind™ options. Capture and monitor media using an Avid or third-party video I/O interface or edit on-the go with the software standalone. Accelerate your editing with powerful Avid® control surface options. And add additional color grading, mastering tools, newsroom integration, and more with a host of options.

Overcome technology challenges

Gain the commanding edge and stay at the forefront of the media industry with a steady stream of new updates and features that enable you to work with the latest media formats and technologies. From Avid Resolution Independence and real-time remote collaboration, to support for the industry's most extensive range of file-based media, codecs, and third-party products, Media Composer is the only tool that advances your editorial integrity and versatility—now and in the future.

Get the industry standard for \$49.99/month

When reputations are on the line, professional editors in film and television have long turned to Media Composer to help them expertly manage mountains of media, simplify workflows, and accelerate the editorial process to tell the best story possible. And now the software is an easy fit for any budget through a monthly, annual, 2-year, or 3-year subscription, enabling you to add the media industry standard to your workflow on a low-cost, as-needed basis. Or choose to buy and own the software outright or offer floating licensing across your facility. The choice is yours.
